Add items to the Store

Use miranda version 2020.1.038 or higher.

Generation of a SKU code from miranda

Generate a SKU code associated with one or more elements (systems or scenes). A SKU code will correspond to an item in miranda Store. If you want to publish separate items, generate one SKU code per item.
Click the button corresponding to the item you want to add. If several items need to be added, repeat the operation.

The selected item(s) appear in the list on the right ...

To generate the corresponding SKU code, click on "Publish". In case of error, to clear the list, go back to the upper menu and then return to this page.

By clicking on "Publish", the SKU code is displayed, click on "Send by email" to be able to easily retrieve this code, it will be used in the next step.

Note: Items published on the miranda Store will need to be maintained on your miranda account. Any modification to these elements is reflected in the elements already obtained by the users.
